Forecast for Thursday 09 Jun 2022

Weather: Mainly dry with extensive low cloud through the early hours. A good amount of dry, bright weather through the day, but interspersed with some cloudy periods with patchy light rain or showers. These not lasting too long though, with the cloudiest period from late-evening where there will be a little more in the way of light rain and drizzle.

Chance of cloud-free hill tops above 800m: 10% overnight improving 80% by midday. Decreasing 30% late-evening.

Low cloud and visibility: Low cloud occasionally down to 400 m overnight and early morning, mainly in the east. This generally lifting and breaking, through the morning with cloud above the summits in the afternoon and early-evening. Bands of rain may lower cloud down to 600 m at times in the evening. Good visibility occasionally moderate in rain, and very poor within low cloud.
